WEDNESDAY, MARCH 14, 2018
FULTON-MONTGOMERY COMMUNITY COLLEGE
THEATER
2805 STATE HWY 67, JOHNSTOWN

THEATER

5:30-7:30 P.M. Hot Button Land Uses

- Local governments are not able to regulate all uses the same way: some uses have special statutory protection or rules established through case law and require special consideration, such as religious uses, mining, and telecommunications facilities. Other uses might be new to the local officials attempting to regulate them, such as solar energy facilities, barn weddings, and short-term rentals. This course is an overview of some of the land uses that many local officials find challenging, along with the statutory rules and case law associated with them and options for regulating them.

THEATER

7:45 – 8:45 P.M. Walkable Communities

- Increasing the availability and attractiveness of pedestrian facilities can help revitalize downtowns, provide an alternative means of transportation, and encourage a healthier lifestyle. This session provides an overview of several common municipal land use tools (zoning, site plan review, subdivision regulations, and special use permit). The program then explores how these tools can be tailored to improve pedestrian conditions by the requirement of sidewalks, pathways and other pedestrian facilities, as well as through the encouragement of better site design.
